1. Aims

While the only school within the Trust currently is an Independent School which is not mandated to follow ESFA funding protocols, the Trustees have taken the decision to be guided by The Academies Financial Handbook. As per paragraph 6.3.1 of the Education and Skills Funding Agency's Academies Accounts Direction 2018 to 2019, these accounting policies aim to set out the principles, bases, conventions and rules by which transactions and items are recognised, measured and presented in the academy trust's accounts.

2. Legislation and statutory requirements

The Education and Skills Funding Agency (ESFA) requires academy trusts to prepare their financial statements according to UK Generally Accepted Accounting Practice (UK GAAP) and this assumption must be disclosed in the notes to the annual accounts under the heading of 'accounting policies'.

The accounting policies have also been written in line with the requirements of:

- The Academies Financial Handbook
- The Academies Accounts Direction

The Academies Accounts Direction 2018 to 2019 is based on Charities Statement of Recommended Practice (SORP) 2015 as amended by Charities SORP (FRS 102) Update Bulletin 1, and Financial Reporting Standard (FRS) 102.

A summary of the principal accounting policies, which are applied consistently, except where noted, is set out below.

3. Roles and responsibilities

Academy trustees

The board of trustees is required to review and approve the trust's accounting policies, which are incorporated within the annual report and accounts.

4. Basis of preparation

The trustees are required to ensure that the trust's accounts are prepared in compliance with the Companies Act 2006. A departure from any of these basic accounting principles will require disclosure notes in the accounts together with the reasons for the departure.

The accounting officer, Mrs S Govender is responsible for ensuring that all reasonable controls are in place.

Overall, the accounts must always give a true and fair view.

5. Accruals concept

All income and expenditure for the period to which the accounts relate are included in those accounts.

Where an individual invoice or receipt is less than £100 then no provision is made. This is to minimise the number of sundry transactions.

In preparation for year-end an exercise is completed to ensure all invoices and debts are settled to minimise the necessity for provisions.

6. Liabilities

Liabilities are shown in the balance sheet where goods or services have been received, but the payment has not been made during that period.

7. Provisions

Provisions are shown in the balance sheet for obligations such as pension contributions, tax liabilities or other payments to similar funds or bodies where the payment has been deferred.

8. Financial instruments

The academy trust only holds basic financial instruments as defined in FRS 102.

The financial assets and financial liabilities of the academy trust are as follows:

- Cash at bank, including all current and deposit accounts belonging to the trust
- Cash in hand, including any petty cash and monies not yet banked
- Financial debtors, including all monies owing to the trust
- Financial liabilities, including all current commitments of the trust in terms of unpaid invoices and debts

9. Historical cost convention

The revenue, costs, and any assets bought by the trust are recognised in the accounts at the original cost regardless of present value.

10. Going concern

The accounts are prepared on the assumption that the trust will continue to function in the future and is therefore a going concern.

The trustees will assess if there are any material uncertainties related to events or conditions that may cast significant doubt on the ability of the trust to continue as a going concern. The trustees will make the assessment in respect of a period of one year from the date of the approval of the financial statements. If no such material uncertainties apply, then this will be stated.

11. Consistency

The trustees have agreed on suitable accounting policies for depreciation of business assets, foreign exchange translation and accounting for stock valuation.

12. Prudence

The accounts are prepared prudently. This means that only realised transactions are included in the income and expenditure statements. For example, income is included only where it is either received or its receipt is certain and applicable within the period.

Debts are considered and only written off when approved by the Board of Members

13. Netting off

Items are not netted off in the accounts. The accounting system identifies all transactions and the financial procedures require that income and expenditure are fully recorded and not subject to netting off.

14. Accounting treatment of income

All income is on a receivable basis.

All incoming resources are recognised when the academy trust has entitlement to the funds, the receipt is probable and the amount can be measured reliably.

Grants receivable are included in the statement of financial activities (SOFA) on a receivable basis. Any balance of income received for specific purposes but not expended during the period is shown in the relevant funds on the balance sheet. Where income is received in advance of entitlement of receipt, its recognition is accrued and included in creditors as deferred income.

Specific references are made for the receipt of the general annual grant (GAG), capital grants and any other grants with specific conditions, when applicable

Donations to the trust are recognised on receipt.

Capital grants are recognised in full when there is an unconditional entitlement to the grant. Unspent amounts of capital grants are reflected in the balance sheet in the restricted fixed asset fund. Capital grants are recognised when there is entitlement and are not deferred over the life of the asset on which they are expended.

Sponsorship income (if applicable) provided to the academy trust which amounts to a donation is recognised in the SOFA in the period in which it is receivable (where there are no performance-related conditions).

Donations are recognised on a receivable basis (where there are no performance-related conditions).

Other income, including catering income and fees for breakfast and after school clubs, is recognised in the period it is receivable.

15. Accounting treatment of resources expended

All expenditure is recognised in the period in which goods or services are received.

All expenditure is classified in the accounts under an appropriate heading to the type of goods or services purchased.

In relation to the costs of generating funds, where a fundraising activity incurs expenditure in order to raise the income, this is clearly shown in the accounts. Large activities (e.g. exhibitions or shows) are given a discrete cost centre for both income and expenditure to enable a trading account to be extracted for monitoring purposes.

Governance costs include the costs attributable to the trust's compliance with constitutional and statutory requirements, including audit, strategic management and trustees' meetings and reimbursed expenses.

Resources are recorded net of VAT, with the exception of business costs where VAT is identified as irrecoverable. They are classified under headings that aggregate all costs relating to that activity.

16. Accounting for fixed assets

Assets received on conversion or on transfer of an existing academy are valued at fair value and recognised in the balance sheet at the date of transfer.

Donated fixed assets are measured at fair value on the date of receipt.

Tangible fixed assets valued at £1000 or greater are capitalised as tangible fixed assets and are carried at cost, net of depreciation. The value of assets is included in the balance sheet at cost and depreciated over their expected useful economic life.

Where tangible fixed assets are acquired with the aid of specific grants, either from the government or from other sources, they are written down in the year of purchase as fully funded to account for the receipt of the grant.

Intangible fixed assets costing £1000 or greater are capitalised and recognised at cost and depreciated over their expected useful life.

17. Depreciation

Depreciation is provided on all tangible fixed assets other than freehold land, at rates calculated to write off the cost of each asset on a reducing balance basis over its expected useful life, as follows:

- Freehold buildings – 50 years
- Long leasehold buildings – 50 years or as long as the lease, whichever is shorter
- Fixtures, fittings and equipment – 7 years
- ICT equipment – 3 years

- Motor vehicles – 5 years
- Purchased computer software – 5 years

Depreciation on assets still in construction is not charged until they are brought into use.

Should an asset become damaged or lost without recovery, then this can be written off as disposed of. Where there is a remaining value then this is charged to the year of write off.

18. Leased assets

Leased assets rentals under operating leases are charged on a straight-line basis over the lease term reflecting the payment terms.

19. Investments

The accounting policy for investments is determined when the need arises. Should an investment become possible, then the trust determines the minimum risk options available to protect monies.

The trust does not hold any investments at the current time.

20. Reserves policy

The trustees have agreed that the appropriate level of reserves is equivalent to three months expenses

This level will provide sufficient liquid funds to cover committed expenditure, including employee costs, for three months

21. Stock

Catering and uniform stocks are the property of the provider.

22. Taxation

The academy trust meets the definition of a charitable company for UK corporation tax purposes.

The academy trust is, by definition, exempt from taxation in respect of income, capital gains and corporation taxes on the provision and understanding that all income and other gains are applied exclusively for educational purposes.

23. Pension benefits

The trust holds one type of pension benefits for its employees. The schemes is provided by NEST. This is a funded scheme and the assets are held separately from those of the trust in separate trustee administered funds. The trust is liable for the “deficit” payment based on the annual actuarial value.

Actuarial reviews of the scheme are conducted annually and recognised as a separate fund within the accounts.

24. Fund accounting

Restricted general funds comprise income from any source where the funding is intended for a specific purpose. This includes all grants received from the ESFA when applicable and from any other funding body.

Unrestricted income funds represent those resources which may be used towards meeting any of the charitable objects of the trust at the discretion of the trustees.

Restricted fixed asset funds refers to income which is to be applied to specific capital purposes imposed by the ESFA, when applicable or other funders where the asset acquired is for a specific purpose.

25. Critical areas of judgement

There may be instances where items within the accounts are arrived at by way of a judgement, other than by estimation. A judgement is a conclusion which relies on other factors other than factual evidence and may contain a risk of causing a material adjustment to the accounts if subsequently found to be incorrect. When this happens, all judgements must be made clear to trustees in writing

26. Monitoring arrangements

The board of trustees is responsible for the implementation of these policies.
These policies are reviewed by the board of trustees every 2 years

27. Links with other policies

These accounting policies are linked to the:

- Charging and remissions policy
- Competitive tendering policy
- Investment policy
- Gifts and hospitality policy
